## PROJECTS

**Arcade Game** - [webenhanced.co.uk/arcade-game/](http://webenhanced.co.uk/arcade-game/)

Clone of classic game frogger. Created enemy subclasses with different movement patterns and sprites.

**Neighbourhood Map** - [webenhanced.co.uk/neighborhood-map/](http://webenhanced.co.uk/neighborhood-map/)

Developed a full-page map that loads with popular bars and restaurants. Responsive application built with Knockout.js

**Health Tracker** - [webenhanced.co.uk/health-tracker/](http://webenhanced.co.uk/health-tracker/)

Searches through Nutritionix Api database for food and drinks based on user input, which is saved into Firebase database when selected.
